* This compatibility chart describes operating system versions supported by Evolis drivers solutions. Other versions are not supported but installation is allowed.

** Compatibility only from 21H2 version (build 22000.708) for Windows 11 and only from Windows Server 2022 version (build 20348.169) for Windows Server 2022 . For lower Windows versions, some issues can occur on multiple printer detection.

✓: Microsoft Hardware certification approved (Microsoft tests have been validated on this version).
